Prince George, BC V2M 0A8

Dean Patry, President
Prince Rupert Gas Transmission Project
760 Kinsmen Place
Prince George, BC V2M 0A8

Dear Mr. Gateman and Mr. Patry:

Re: Letter of Support

On behalf of the City of Dawson Creek I am pleased to provide a letter of support for the Coastal GasLink Pipeline Project and the Prince Rupert Gas Transmission Project.

The export of liquefied natural gas represents a major economic opportunity for British Columbia. The Peace region is experienced in working alongside the natural gas industry and is in line for a larger economic boost related to increased natural gas exploration, production and processing. In Dawson Creek, the increased upstream activity means ongoing business for the energy service sector, transportation, retail and other services.

We are pleased that TransCanada's project teams have made the effort to learn about Dawson Creek area priorities and engage with local government, Chamber of Commerce, landowners and residents. We are also excited about the partnership with Northern Lights College and the opportunities it will bring for students related to skills training and education. We look forward to the implementation of your local participation plans and continuing the ongoing respectful and transparent dialogue.

We wish you every success as these two TransCanada projects move toward their final investment decisions, and we look forward to an ongoing relationship for years to come.

Yours truly,

Dale Bumstead
Mayor
