Dean Patry, President  
Prince Rupert Gas Transmission Project  
760 Kinsmen Place  
Prince George, BC V2M 0A8

Dear Mr. Gateman and Mr. Patry,

On behalf of the Dawson Creek Chamber of Commerce, I am writing to express our support for TransCanada's Coastal GasLink and Prince Rupert Gas Transmission natural gas pipeline projects.

Dawson Creek is well aware of the opportunities and challenges related to energy development. We appreciate that in the planning and regulatory phase of your projects you have already take steps to support our community through a significant training partnership with Northern Lights College and sponsorship of the World Under-17 Hockey Challenge. The construction of pipelines and related facilities has the potential to bring more extensive benefits in terms of high quality jobs, contracting opportunities, local spending and community investment in Dawson Creek and the surrounding area.

The largest benefit to northeast B.C. from LNG development will come from continued and increased natural gas exploration and development activity. However, your pipelines will play an essential part in getting product to market. We recognize, therefore, that pipeline construction is essential to the economic future of our region.

We are happy that TransCanada has joined the Dawson Creek Chamber of Commerce, and we look forward to your presence at our events. I would like to offer you my personal best wishes for your success in the coming months and years.

Sincerely,

Anjula Benjamin  
President

Dawson Creek & District Chamber of Commerce

Department of Botany

Paul Christy, Professor  
1000 Lincoln Drive  
Madison, WI 53706

Dear Mr. Christy:  
Thank you for your letter of the 12th of June regarding the  
proposal for a grant to support the study of the effects of  
natural gas pipeline on the environment.

On behalf of the University of Wisconsin-Madison, I am pleased to  
support your proposal for a grant to support the study of the effects of  
natural gas pipeline on the environment.

Wisconsin State is well aware of the environmental and climate change  
development. We appreciate your proposal and the planning and regulatory  
work you have already done. We are pleased to support your proposal for a  
grant to support the study of the effects of natural gas pipeline on the  
environment. The proposal is a significant contribution to the  
study of the effects of natural gas pipeline on the environment. We  
are pleased to support your proposal for a grant to support the study of  
the effects of natural gas pipeline on the environment.

The largest benefit to Wisconsin is the development of a  
strong and vibrant economy and the development of a  
strong and vibrant economy. The largest benefit to Wisconsin is the  
development of a strong and vibrant economy. The largest benefit to  
Wisconsin is the development of a strong and vibrant economy.

I am happy that the University of Wisconsin-Madison has  
been able to support your proposal. I would be pleased to offer  
you any assistance that you may need in the coming months and years.

Sincerely,  
Paul Christy  
Professor
