

CONSTRUCTION NOTIFICATION

Coastal GasLink is committed to creating an extraordinary legacy of safety and respect for all people, communities and the environment. As part of this commitment, we are keeping our neighbours along the project route informed on construction. Please note the following information:

What: Controlled blasting activities will continue in Section 5 along the project route, roads and ancillary sites. All blasting activities will be done in accordance with provincial and federal regulations.

When: Beginning on May 9th, 2022, blasting will be conducted daily between 8 a.m. and 6 p.m. and will continue until the end of December 2022 in some areas.

Where: Blasting activities will occur between Kilometre Posts (KP) 337+326 to KP 419+459 along the project construction footprint and various ancillary sites with the nearest communities being Fraser Lake, Endako and Lejac. If blasting is required in close proximity to a residence, an additional notification will be made in advance of blasting activities to the residence(s) in proximity.

Expected Duration: From May 9th, 2022 through to the end of December 2022. Depending on the location, blasting activities in any particular location may occur for one or more days during this timeframe.

Potential Impact: While there are no anticipated permanent road closures required as part of this activity, public access to this segment of the project route and a surrounding safety zone will be restricted during this period. There are no permanent residences located within 250 metres of the area. The project route intersects with Highway 16, but no impacts to its normal operation have been identified at this time. However, some restrictions to local and forestry roads may be required during blasting depending on the scope and location of work. It is not expected that these activities will result in any detectable sound or vibration beyond the immediate work area.

Map: Please see map(s) below.

Questions regarding these activities or general project construction can be directed via email to coastalgaslink@tcenergy.com or by phone to 1-855-633-2011.
