

Coastal GasLink

Construction Notice: Pipe transport by truck to Coastal GasLink right-of-way

Coastal GasLink is committed to creating an extraordinary legacy of safety and respect for all people, communities and the environment. As part of this commitment we are keeping our neighbours along the project route informed on construction activities.

What: Pipe delivery from storage sites to the Coastal GasLink right-of-way.

When and where: Beginning August 2020 over the course of pipeline construction. This activity will take place in sections along the right-of-way during daylight hours.

What to expect: Signage will be used as required and no road closures or significant traffic impacts are expected

with staggered loads and standard-sized haul trucks. Traffic management plans are in place to maximize safety and minimize any potential effects to local traffic and communities. Coastal GasLink will have road monitors and inspectors in place to help ensure pipe delivery is done safely, with respect for speed and road conditions, and in accordance with plans and requirements.
