

CONSTRUCTION NOTIFICATION

Coastal GasLink is committed to creating an extraordinary legacy of safety and respect for all people, communities and the environment. As part of this commitment we are keeping our neighbours along the project route informed on construction activities along the project route. Please note the following information:

What: Open burning of vegetative matter such as non-merchantable trees, stumps, roots, shrubs, branches and other debris from regulatory approved clearing activities.

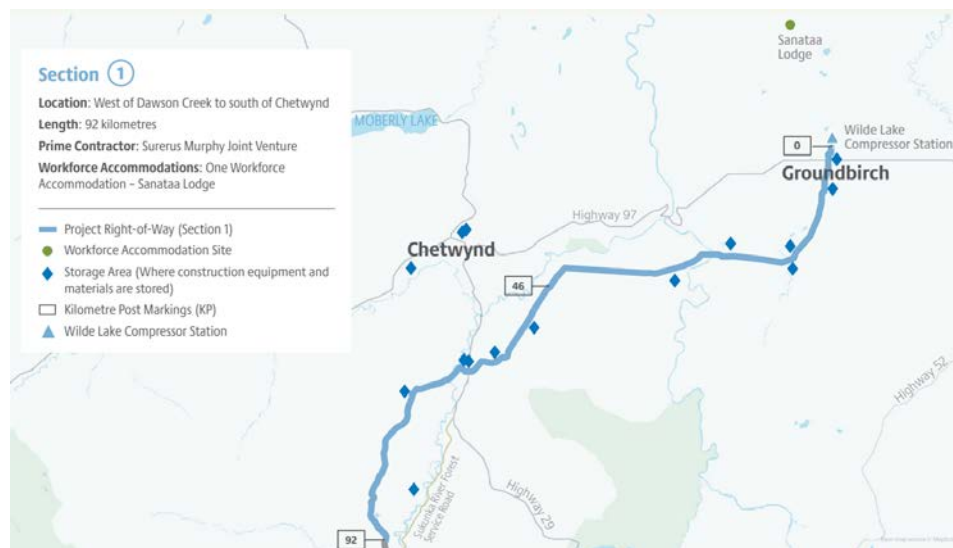

When: Burning activities expected to begin late-October 2020 and may be conducted daily when conditions permit. Burning anticipated to continue until the end of December 2020 in some areas.

Where: This activity is planned for KP 0.3 to KP 25 along the project route. See map below.

Expected Duration: End of October 2020 through to the end of December 2020.

Potential Impact: Permits and authorizations are in place and will be done in compliance with the BC Open Burning Smoke Control Regulation, Forest Fire Prevention and Suppression Regulation, and the Wildfire Regulation. Safety and fire prevention plans are in place. All burning activities will be done in accordance with the project's Environmental Management Plan and will be carefully planned and monitored, including for air quality and emissions.
