

## CONSTRUCTION NOTIFICATION

*Coastal GasLink is committed to creating an extraordinary legacy of safety and respect for all people, communities and the environment. As part of this commitment, we are keeping our neighbours along the project route informed on construction. Please note the following information:*

**What:** Controlled blasting activities will begin in Section 3 along the project route, roads and ancillary sites. All blasting activities will be done in accordance with provincial and federal regulations.

**When:** As an extension of the [July 21, 2021 notification](#), blasting will be conducted daily between 8 a.m. and 6 p.m. and will continue until the end of 2022 in some areas.

**Where:** Blasting activities will occur between KP 140 to KP 212 along the project construction footprint and various ancillary sites with the nearest communities being **Bear Lake, B.C.**

**Expected Duration:** From **January 4, 2022** through to the end of **December 2022**. Depending on the location, blasting activities in any particular location may occur for one or more days during this timeframe.

**Potential Impact:** While there are no anticipated permanent road closures required as part of this activity, public access to this segment of the project route and a surrounding safety zone will be restricted during this period. There are no permanent residences located within 300 meters of the area. This segment of the project route does not intersect any major public roads. However, some restrictions to local and forestry roads may be required during blasting depending on the scope and location of work. It is not expected that these activities will result in any detectable sound or vibration beyond the immediate work area.

**Map:** Please see map(s) below.
