

## Road Deactivation Notification

***Coastal GasLink is committed to creating an extraordinary legacy of safety and respect for all people, communities and the environment. As part of this commitment we are keeping our neighbours along the project route informed on construction activities happening near their community. Please note the following information:***

**What:** To enable pipeline construction, Coastal GasLink has created temporary roads and right-of-way access points. As pipeline construction is completed, these roads and access points will be closed (deactivated/decommissioned) at various locations in the Peace River Regional District. In many places, physical barriers will be erected.

**When:** Effective June 13, 2022, some temporary roads and access points will be decommissioned and unavailable for safe public use.

**Where:** Please note that road access for the following locations will be deactivated on June 13, 2022, near the Project right-of-way (KP 20 to KP 25). See map as part of this notification.

Coastal GasLink Road ID	BC OGC AD#	Location
RE-1000	100101651	West of the Groundbirch Forest Service Road, along the Project right-of-way

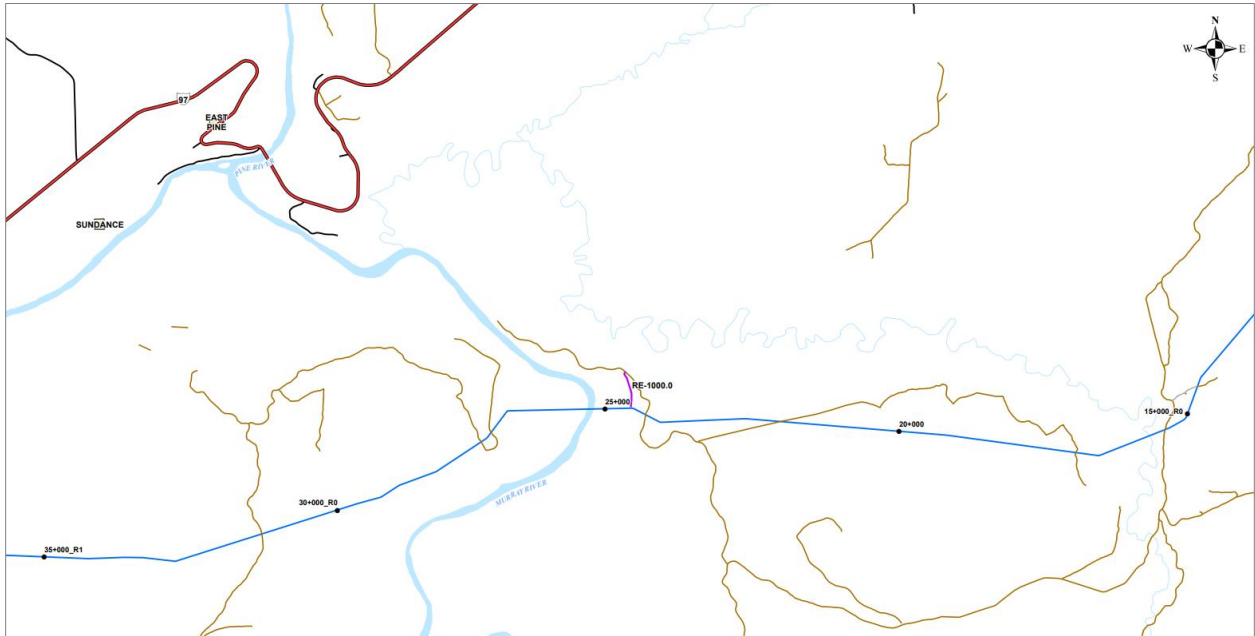

**Potential Impact:** Access to these roads will be removed and deactivation activities will take place.

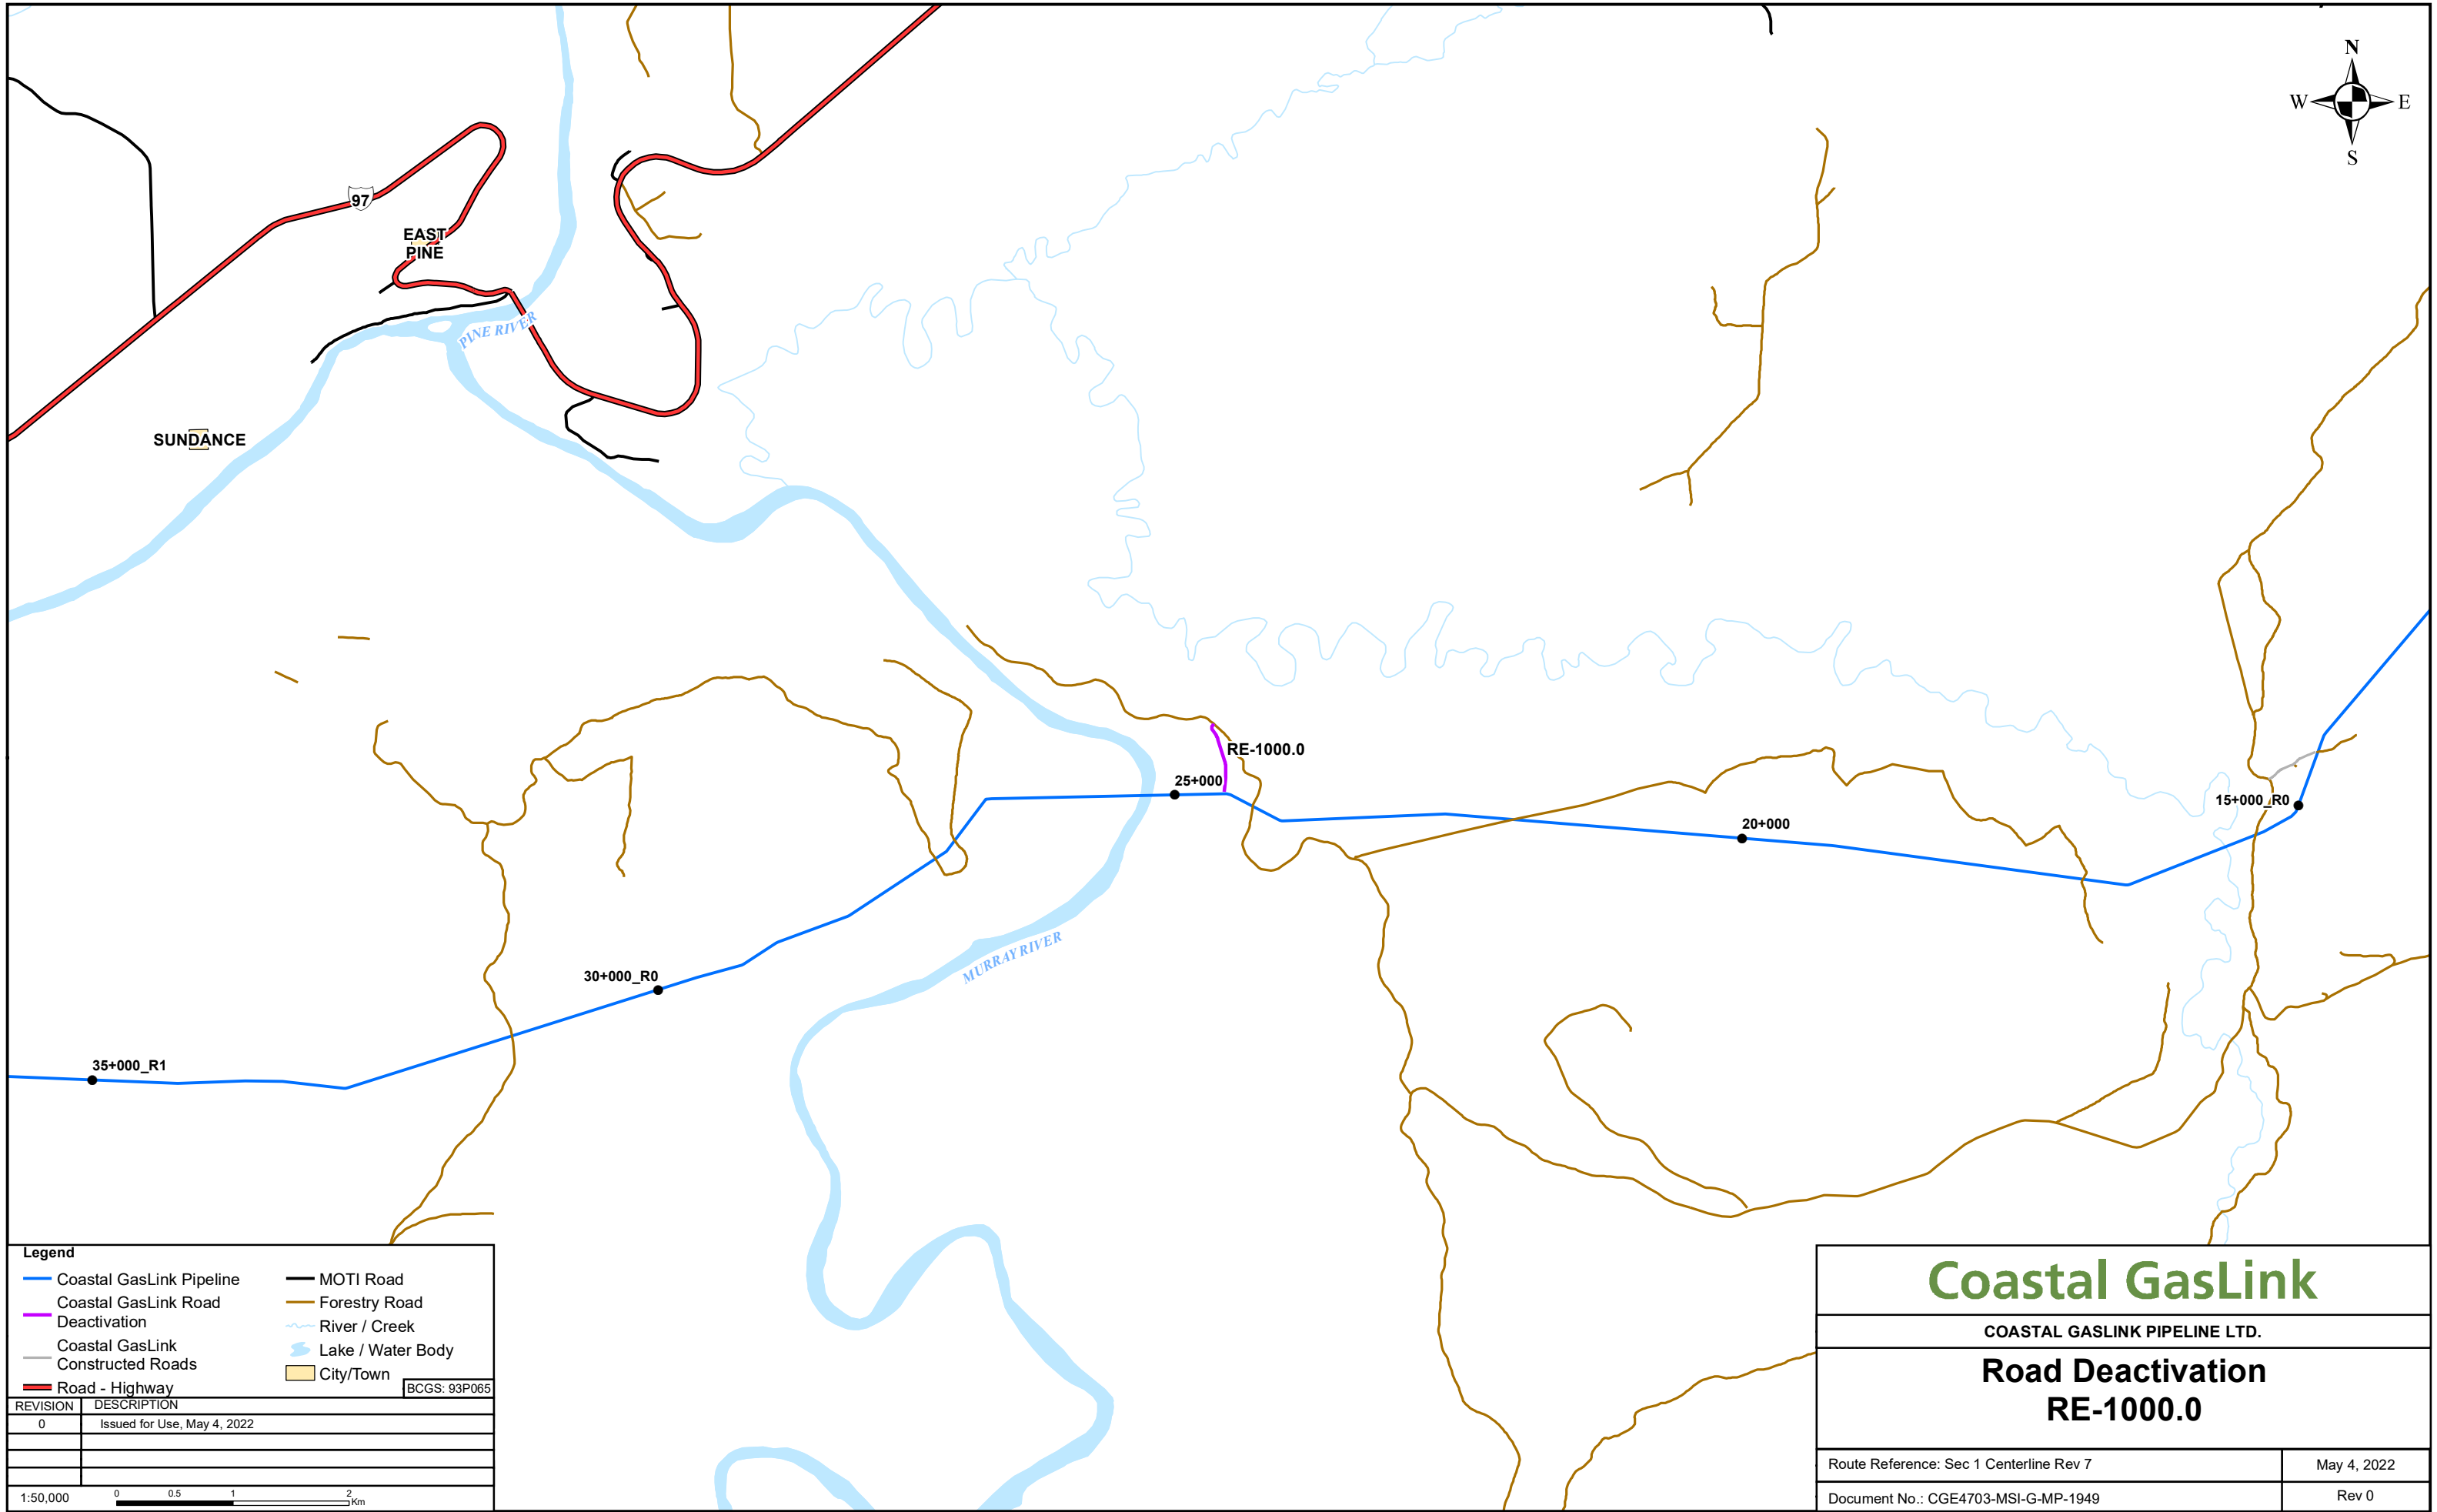

Consistent with the BC Oil & Gas Commission Regulation, Coastal GasLink will meet deactivation requirements through activities including:

- Place natural physical barriers (such as piles of rock or woody debris) at entry points to prevent access by motor vehicles
- Remove stream pipe culverts and arch culverts
- Remove bridge and log or box culvert superstructures
- Stabilize the road prism and the clearing width of the road
- If the natural drainage pattern was altered, restore to the extent practicable, the drainage pattern to its condition before the alteration
- Install signage for additional safety

Questions regarding these activities or general project construction can be directed via email to [coastalgaslink@tcenergy.com](mailto:coastalgaslink@tcenergy.com) or by phone to 1-855-633-2011.
